We are pleased to announce that the 11th Asian Workshop on Micro/Nano Forming Technology, AWMFT 2018, will be held in Yunlin on November 4-7, 2018. The primary object of this workshop is to provide an opportunity to discuss and exchange ideas on new applications for nano/micro forming as well as new technology developments. We assure that you will find your participation a rewarding experience for broadening your academic knowledge and for serving your personal needs. We also invited famous scholar to share their knowledge in the field of metal forming. Committee encourages the young scientist to dig in this field. Therefore, several awards are planned for Young Scientists.

Technical Areas

We welcome contributions on novel topics as below but not limit to :

1. Micro/nano forming processing and application
2. Micro/nano scale effect
3. Micro/nano forming equipment and simulation
4. Measuring and controlling of micro/nano forming
5. Preparation and properties of micro/nano materials
6. Nanocrystallization and Nanomechanics
7. Sheet metal forming
8. Servo press forming
9. Numerical simulation for macro/micro scale of metal deformation
10. Others relevant to metal forming, metallic deformation and technology of plasticity

Organizing Committee

General Chair

Wen-Yuh Jywe (National Formosa University)

Program Chair

Yeong-Maw Hwang (National Sun Yat-sen University)

Cho-Pei Jiang (National Formosa University)

Steering Committee

Yeong-Maw Hwang, National Sun Yat-sen University (Taiwan)

Ming Yang, Tokyo Metropolitan University (Japan)

Hyoung Seop Kim, POSTECH (Korea)

Debin Shan, Harbin Institute of Technology (China)

Important Dates

- | | |
|------------------------------|---|
| July 01, 2018 | Submission of an abstract (max 400 words) |
| July 31, 2018 | Acceptance of Abstract |
